

Healthy By Design Coalition

Vision: Make the Healthy Choice the Easy Choice

Long Term Measurement Goal: Increase proportion of residents who are at a healthy weight in Yellowstone County.

Overall Approach: Healthy By Design through policy, system and environmental change efforts will see a positive effect in Yellowstone County's physical, behavioral and social wellbeing through **collective impact efforts** related to physical activity, nutrition and overall health.

2017 – 2020 Yellowstone County Community Health Improvement Plan Initiatives to Date (Updated December 2018)

Healthy Neighborhood Project

Creating a resident-driven healthy neighborhood plan focused on celebrating the South Side as the *Bright Side of the Tracks*

Food Access

- Neighborhood grocery retail
- Community garden*
- Gardening resources

Neighborhood Placemaking

- Neighborhood brand
- Public art
- Historical recognition

*A community garden was prioritized by residents as an opportunity to increase food access, however, during the implementation phase, the community garden concept more strongly aligns with the need for a safe and welcoming family – friendly gathering space and activity for residents.
